candlelight

Following the Mindfulness wool collection, Candlelight is yet another textured textile made from recycled wool. It is manufactured in Italy using waste material from the clothing industry. Because of its similar composition, the Mindfulness fabric can be used as a coordinate for Candlelight. The colour palette is inspired by soil and nature, from shades of beige, brown, red, ochre, grey as well as subdued, muted green. With the warp being of a different colour than the weft, the fabric produces a pixelated effect that makes its surface more lively. Wool is naturally flame-retardant, therefore it meets the requirements of a number of flame retardancy standards.

it's all in the *details*:

Colors: 38 colours

Width: 142mm

Weight gr/m2: 352

Composition: 70% recycled wool, 20% polyester, 10% other fibres

Shrinkage tolerance: 2 +/-

Light fastness 1 = v.low 8 = excellent: 4-5

Cleaning: Not washable

Fire Resistance: BS 5852 / EN 1021

Acoustic rating: 0

sustainability:

Recycled %: 70

Country of origin: Mainland Europe

Fossil fuel consumption MJ/m²: No data

Carbon footprint kg CO2 eq/m²: No data

Water consumption M3 eq/m²: No data
